

'Immigration Sanitaire' for Humanitarian reasons ?

Or a Trojan Horse-cover holding mercenaries, jihadis, separatists with French ID's for to infiltration into Indian territory for clandestine activities ?

Directors, actors with related bureaucracy in creating and nurturing 'Diabetes Epidemic'.

Although the world over unheard of, French administrators then invented 'Diabetes epidemic'. The occupants of presidential palace of France were openly promoting this delightful drink 'the super sweet river Seine (in Paris) water' for 'savour' so exotic and 'quality exceptional'.

Not in 10's, or 100's, but in 1000's of undocumented foreigners whose background data would fit into one single category (monolithic-identity), shopped around and were able to locate doctors (monolithic-identity) who belonged to the similar group of 'Socially like minded' persons and willing to print (assembly line) a diagnose of diabetes in their client's name. (ref.....)

Because common citizens and lay persons would least suspect medical doctors being active in terror finance and export, that is why the above method was deployed.

This exponentially growing clandestine operation and covert activity (un accounted for funds for terror finance and export ?) petered out about year 2001. By this time these so called doctors' names were a talk of the town. Only then the French authorities decided to take token measures,

Article L.313-11 alinéa 11 du code de l'entrée et du séjour et du droit d'asile.

Around year 2001, French authorities imposed token sanctions on these doctors. By this time, thousands of these bogus diabetics had their French Residence permits in the safety of their pockets. They were also allowed to bring-in (or smuggle in) their (real or pseudo) families from abroad and dependents (real or pseudo- paying clients-for each French Residence Permit, the going price was about 20,000€).

Human Rights Industry- Private or Public enterprise ?

Underground places for prayer and prayer meetings- and social networks of likeminded people. 1990-1996-1999.

So called 'Medical Doctors' (Insider Trading) gave False Examination Reports written in a way so as to influence EU member nation Administration's Decision in favour of Applicants' demanding a Permanent Residence Permit within EU (target-Shengan visa privileges). In this way thousands of clandestine, illegal, of unknown characters were sold the benefits of a permanent Residence within EU. These smuggled-ins had to belong to a certain country and religion.

So called Medical Doctors' fake examinations and Falsified Examination Reports.

These medical doctors who actually refused to integrate into European society were allowed to practice medicine within EU and allowed to operate like a State unto themselves ?

If everyone else within EU (including Presidents and Prime Ministers of member nations) can be persecuted for Crimes against Humanity (and planning of) how come these so called 'Medical doctors' are walking the streets as free persons and still receiving payments from nation's Social Security system ?

Is it not enough proof for civilised society-EU's 'Moral bankruptcy' ?

During the same period (and a little while before) AI-Amnesty International missed no opportunity (through its reports-campaigns) to ostracize India/ns.

And how come this highly experienced (2 generations) intelligence gathering corporation AI was not aware what the events/exposures like Sep. 11,2001 could bring to surface.

For example, the same terrorists which are being hunted by the western leaders especially the US now after the events of Sep. 11, 2001 were once their allies/proxies.

After they felt ignored by their former employers, they set-up their own-shops and started competing with their former mentors.

These so called terrorists/radical Islamists now, were before Sep.11, 2001 engaged in all kinds: of illegal activities (forged currencies, Forged Documents, passports, visas and documents useful for acquiring Asylum Status for their paying clients), smuggling (of drugs, people, weapons and illegally acquired money)clandestine activities.

Post Sep. 11, 2001.

Sufficient information surfaced in the public domain showing how social networks of likeminded people :

supported illegal activities, like theft, fraud-financial institutions, robberies, smuggling, People Smuggling and transfer of money through underground channels in order to dictate their political goals which they knew couldn't achieve otherwise.

created charitable organizations as fronts for otherwise clandestine activities, insurgency and terrorism.

created cells where the hard core sought shelter, to recuperate and rearm.

It is very likely that Refugee Applications are coded-whereby the bureaucracy dealing with it knows Human Right Defender franchise backing (agents behind) this Demand and the method of feedback (if in cash or kind ?)

Privileged and Preferential Routing was another hallmark of this alliance, Human Rights Industry franchises and Asylum Business Bureaucracy in EU member nations.
